

Coronavirus Action Plan – Ralph Honda

Location:
Effective Date:
Revision Number: 1

Ralph Honda

The coronavirus (COVID-19) outbreak has impacted businesses across a variety of industries, forcing them to rethink their daily operations to ensure the safety of their employees and the general public. This is no different for retail operations, where multiple workers may come into contact with innumerable customers visiting the store throughout the workday. In these instances, just one misstep can lead to the quick spread of COVID-19, jeopardizing the well-being of workers.

To help slow the spread of COVID-19 and safeguard our staff, Ralph Honda has created an action plan for responding to COVID-19. This plan, which is based on Centers for Disease Control and Prevention (CDC) and Occupational Safety and Health Administration (OSHA) guidance, highlights the responsibilities of managers and employees, and outlines the steps Ralph Honda is taking to address COVID-19.

RESPONSIBILITIES

When it comes to ensuring a safe workplace during the COVID-19 outbreak, both managers and employees have a role to play. The following is a breakdown of the responsibilities for Ralph Honda leadership and staff.

Managers and Supervisors

Ralph Honda leadership, including managers and supervisors, should familiarize themselves with the details of the action plan. Above all, leadership must be prepared to answer questions from employees and set a good example by adhering to the guidance prescribed in the plan. This involves practicing social distancing and good personal hygiene.

Employees

Employees play a critical role in Ralph Honda's COVID-19 prevention efforts. To protect everyone in the store, Ralph Honda has a number of general best practices employees should follow:

- **Understand the signs and symptoms of COVID-19, and stay home if you are feeling sick**—Any employee who is experiencing symptoms of COVID-19 (e.g., fever, cough, shortness of breath, sore throat, runny nose, body aches, chills or fatigue) should stay home. Individuals experiencing such symptoms should also be instructed to consult guidance from the CDC on seeking medical care.
- **Practice good hygiene**—Employees should clean their hands often, either with an alcohol-based hand sanitizer or soap and water. Hand sanitizers should contain at least 60%-95% alcohol, and employees should wash their hands with soap for at least 20 seconds. In addition, employees should avoid touching their face and cough into their arm.
- **Practice social distancing**—Social distancing is the practice of deliberately increasing the physical space between people to avoid spreading illness.

For specific employee safety protocols, click [here](#).

Pandemic Response Team

The pandemic response team is a cross-functional team that recommends and oversees workplace protocols to control the spread of COVID-19. The team will include the following roles:

- **Store manager**—**Zac Ralph / Steven Ralph** are responsible for the store's overall action plan. They are responsible

for working with company stakeholders and relevant health and safety bodies to manage this action plan.

- **Virus prevention and protocols lead**—**Les Eccleston** is responsible for recommending and developing protocols to ensure the wellness of all employees. They are also tasked with overseeing procedures for isolating employees should they become sick at work.
- **Sanitization and disinfection lead**—**Les Eccleston** manages logistics related to daily and periodic sanitation and disinfection efforts. Their responsibilities include ensuring that routine cleanings are completed and that the necessary cleaning supplies are readily available.
- **Communication lead**—**Rhonda Breedlove** is tasked with managing any and all pandemic-related communications. They will work with human resources and internal communication stakeholders to ensure COVID-19 training is completed and that employees and their managers understand their role in preventing the spread of the disease. **Rhonda Breedlove** will provide COVID-19 related updates on a weekly basis and as needed.

STORE OPERATION PROTOCOLS

In order to keep staff safe and prevent the spread of COVID-19, Ralph Honda requires the following workplace protective measures:

General Safety Policies

- Employees and customers who exhibit signs or symptoms of COVID-19 will be asked to leave the store.
- Access to handwashing stations and alcohol-based hand sanitizers will be provided to employees in designated areas within the store and within each department
- Employees can voice concerns COVID-19 concerns by initiating communication to any member of the pandemic response team as established in this action plan.
- Ralph Honda may decrease open business hours to perform more frequent cleanings.
- In order to protect staff when working around customers, Ralph Honda may provide:
 - **Gloves**—Employees may contract COVID-19 by touching contaminated surfaces and then touching their face. Gloves are an effective way to prevent COVID-19 from getting on an employee's skin. They are also a good reminder for employees not to touch their face.
 - **Face masks**—Viruses can be transmitted through the mouth via tiny viral particles known as aerosols. Face masks can help protect employees from these particles.

Protocols for Workers

To ensure safety at Ralph Honda stores, employees will be asked to:

- Notify their supervisor and stay home if they are experiencing COVID-19 symptoms (e.g., fever, cough or shortness of breath).
- Stagger lunches to limit the number of individuals congregating in break areas. Ralph Honda may divide crews to reduce the number of workers in the store at a given time. The breakroom furniture has been rearranged to accommodate best social distancing practices.
- Limit close contact with others, maintaining a distance of at least 6 feet when possible. Above all, avoid job tasks that require face-to-face contact with others where possible. If this is unavoidable, employees will be provided with face masks, physical barriers and other workplace controls to ensure their safety.
- Wear face masks where other social distancing measures are difficult to maintain.
- Refrain from sharing equipment. In instances where this is unavoidable, Ralph Honda will provide alcohol-based sanitizing solution and other cleaning materials that employees can use to clean equipment.
- Keep the following in mind when exchanging paper and coin money:
 - Do not touch your face after the exchange.
 - Ask customers to place cash on the counter rather than directly into your hand.
 - Place money directly on the counter when providing change back to customers.
 - Sanitize the counter between customer checkouts.
- Clean and disinfect frequently touched surfaces, including workstations, cash registers, payment terminals, door

handles, tables and countertops on a regular basis.

- Practice proper hand hygiene. Wash your hands regularly with soap and water for at least 20 seconds. An alcohol-based hand sanitizer containing at least 60% alcohol can also be used. Employees should clean their hands:
 - Before, during and after food preparation
 - Before eating food
 - After using the restroom
 - After blowing their nose, coughing or sneezing
 - After putting on, touching or removing face masks
 - Before and after work shifts
 - Periodically throughout the day
 - Before and after work breaks
 - After touching money or objects that have been handled by customers
- Avoid touching your eyes, nose and mouth whenever possible.
- Avoid contact with others whenever possible (e.g., handshakes).
- Avoid gathering when entering and exiting the store. Employees should also only enter and exit designated areas.
- Follow any posted signage regarding COVID-19 social distancing practices.

Protocols for Customers

In order to protect our customers and staff, Ralph Honda will:

- Communicate our safety protocols and why we are taking specific precautions. This will be done using signage, social media and other available communication channels.
- Encourage customers to practice social distancing when in the store. Customers will be asked to maintain at least 6 feet of distance from staff and other customers via verbal announcements on the loudspeaker and written signage.
- Increase cleaning and sanitizing of all high-touch surfaces (e.g., pens, touch screens, desks, keyboards counter and other high touch surface areas).
- Place hand sanitation stations throughout the store.
- Minimize person-to-person contact where possible. This could involve establishing rules regarding the number of customers allowed in the store at a given time or only allowing a set number of individuals in a waiting area.
- Update messaging on our websites to educate customers on store precautions, digital /virtual options and store hours.
- Place visual cues, such as floor decals, colored tape or signs, to illustrate where customers should stand during check out.
- Provide remote shopping alternatives for customers, including website and virtual appointments for vehicle sales, designated area for vehicle delivery. Instructions for these options will be communicated clearly at the point of purchase (e.g., chat, text, or over the phone).
- Cleaning checklist and documented schedule.

Additional Safety Policies

- Ralph Honda will require all employees to complete a COVID-19 Health Screening Questionnaire each day prior to arriving for work. This questionnaire is available on our website at <https://www.ralphhonda.com/covid-19/>.

Sick Leave Policy

- If any employee is not feeling well they are instructed to stay home and NOT report to work. They will need to contact their immediate supervisor to inform them of their illness.

CLEANING AND DISINFECTING PROCEDURES

- Surfaces and equipment will be disinfected at the start of each day, before and after use, or—for frequently touched items—multiple times a day. The following items will be cleaned regularly:

PLAN

- Door handles and push plates
 - Restrooms
 - Aisles
 - Handles on all equipment doors
 - Handles on beverage dispensers
 - Vending machines
 - Refrigerator and freezer handles
 - Sink handles
 - Soap dispenser push plates
 - Towel dispenser push plates
 - Trash receptacle touch points
 - Cleaning tools
 - Buckets
 - Telephones
 - Computers
 - Office cabinet handles
 - Break room tables and chairs
 - Display screens on equipment
 - All stainless steel surfaces
 - Thresholds and hand railings
 - Counters
 - Cashier areas
 - Display cases
 - Self-service areas
 - Point-of-sale areas
 - Kiosks
 - Frequently touched shelving, displays, and reach-in refrigerator units
 - Baby changing stations in restrooms
 - Pens or other writing utensils
 - Clipboards
 - Electronic signature pads
 - Elevator buttons
 - Surfaces inside delivery vehicles
 - Honda shared tools
 - Employee linens
- Employees responsible for cleaning will be given the appropriate protective equipment. Cleaning should be completed using CDC-recommended products, including:
 - Environmental Protection Agency-registered household disinfectants
 - Alcohol solutions with at least 60% alcohol
 - Diluted household bleach solutions (if appropriate for the surface)
 - Specific cleaning products include: Sani-Quat (3 oz. to 5 gal. ratio), Castle Complete 360 all purpose cleaner bactericidal, virucidal, pseudomonocidal disinfectant
 - Trash will be collected from the workplace regularly. Those collecting trash will be instructed to wear nitrile, latex or vinyl gloves.
 - HVAC air filters will be cleaned and disinfected regularly.
 - Hand sanitizer dispensers will be refilled frequently.
 - When an employee has tested positive for COVID-19, deep cleaning will be triggered and Ralph Honda will ensure areas in which the individual worked are cleaned thoroughly. In regard to deep-cleaning practices:
 - Ralph Honda will identify an approved external company to complete a deep cleaning of the facilities. This external company will be equipped with the proper training, permits and cleaning equipment to complete the task.
 - The pandemic response team will coordinate and supervise deep-cleaning efforts to ensure:
 - There is a specific plan and strategy in place, and that plan accounts for all machinery, equipment, common areas, tools and offices.
 - Authorized individuals are the only ones allowed access to the site during the deep cleaning.
 - Employees are aware of deep-cleaning practices.
 - The company contracted to perform the deep cleaning uses the appropriate PPE during the process and disposes of potentially contaminated items properly.

EXPOSURE SITUATIONS

Ralph Honda has response plans in place for situations when employees exhibit symptoms of or test positive for COVID-19.

Employee Exhibits Symptoms of COVID-19 Before Entering the Store

- The employee reports their symptoms to their supervisor, who then communicates that an employee is exhibiting symptoms of COVID-19 to the relevant parties (e.g., human resources).
- The employee is given a face mask and gloves, and is sent to a designated isolation room for further evaluation by the virus prevention and protocols lead or another designated individual. This evaluation will examine an employee's symptoms in more detail, flagging employees who are experiencing the following:
 - A fever of 100.4 F or higher
 - Shortness of breath or difficulty breathing
 - A cough
 - A runny nose
 - Muscle pain
 - Tiredness
- If COVID-19 symptoms are confirmed, employees may be asked to go home and speak with their health care provider. Ralph Honda will ensure employees are able to get home safely before dismissing them. If, after an evaluation, the employee is not exhibiting COVID-19 symptoms, they may return to work at the discretion of the virus prevention and protocols lead.

Self-quarantining and Return to Work

Employees who test positive for COVID-19 or believe they have been infected will be instructed to follow the advice of a qualified medical professional and self-isolate. When self-isolating, employees should:

- Stay away from other people in their home as much as possible, staying in a separate room and using a separate restroom if available.
- Not allow visitors.
- Wear a face mask if they have to be around people.
- Avoid sharing household items, including drinking cups, eating utensils, towels and bedding.
- Clean high-touch surfaces daily.
- Continue monitoring their symptoms, calling their health care provider if their condition worsens.

Notably, employees who are symptomatic or who have tested positive should not return to work until the conditions outlined in the table below are met:

Return to Work Considerations	
Employee was symptomatic but was not tested for COVID-19.	Employee was tested for COVID-19.
The employee may return to work if: <ul style="list-style-type: none">• They have not had a fever for at least 72 hours and have not used fever-reducing medication during that time.• Coughs and other symptoms have improved.• Ten days have passed since they first experienced symptoms.	The employee may return to work if: <ul style="list-style-type: none">• They no longer have a fever.• Coughs and other symptoms have improved.• They have received two negative COVID-19 tests in a row.

When an employee tests positive for COVID-19, deep-cleaning procedures will be triggered. Furthermore, employees who have been in close contact with an individual who has tested positive for COVID-19 will be instructed to self-quarantine.

OSHA RECORDKEEPING AND REPORTING

Ralph Honda will adhere to OSHA-mandated requirements as they relate to recording and reporting certain work-related injuries and illnesses.

QUESTIONS

If employees have any questions regarding the content of this action plan, they should be instructed to speak with their supervisor. Furthermore, while the strategies highlighted in this document can protect workers from COVID-19, it's important to follow CDC guidance at all times. For more information, click [here](#).
